

## STABILITY SYSTEM II Read Me First Document

### Purpose

STABILITY SYSTEM II can be used to calculate the **Mean Kinetic Temperature**.

### Installation File

The installation file that you download from [www.StabilitySystem.com](http://www.StabilitySystem.com) is a single zip file, **MKT.ZIP**, that must be unzipped before installation.

### Installation

MKT.exe is a 32-bit Windows program. Install it in a 32-bit Windows. To install, execute **Setup.exe** after unzipping **MKT.ZIP** file. Always install to the **c:\MKT** folder.

**Note:** If you have problem installing to Windows 2000, please use **Notepad** to edit **<Setup.lst>** and comment out the following text by placing a **semicolon** before **File14=**:

**File14=@msvcrt.dll,\$(WinSysPathSysFile),,,8/4/04 5:00:00 AM,343040,7.0.2600.2180**

Therefore, the text line should read as:

**;**File14=@msvcrt.dll,\$(WinSysPathSysFile),,,8/4/04 5:00:00 AM,343040,7.0.2600.2180****

Save **<Setup.lst>** and then try the installation procedure again.

### Running STABILITY SYSTEM II

Select the MKT option from the Start menu to run **STABILITY SYSTEM II**.

### Documentation

**STABILITY SYSTEM II** is self-documented. All instructions are contained in **MKT.HLP** file. Press **F1** while executing **STABILITY SYSTEM II** to access the *context-sensitive* online help information. The online help file is also searchable. Click the **Index** or **Search** button while the Windows Help window is displayed.

### Validation

**STABILITY SYSTEM II (MKT)** is validated against a manual calculation. Please refer to **STABILITY SYSTEM II - Validation.pdf** file.

The following temperature files are included in the MKT.ZIP file for your use:

**Validation1.MKT   Validation2.MKT   Validation3.CSV   Validation4\_F.MKT**

If your Windows Regional Setting is set to one of locals that uses comma as the decimal separator, please use the following files:

**Validation1comma.MKT   Validation2comma.MKT   Validation3comma.CSV   Validation4\_F\_comma.MKT**

All files are available after the program installation. ***Use only the files that match your Windows Regional Setting. Using the wrong files will trigger error messages.***

**STABILITY SYSTEM II (MKT)** is provided free of charge by ScienTek Software, Inc. as a community service to all relevant industries. You can download the installation file from [www.StabilitySystem.com](http://www.StabilitySystem.com). ScienTek Software, Inc. retains all copyrights. Please observe the Terms of Use.

ScienTek Software, Inc. also offers its flagship product, **STABILITY SYSTEM**, to manage a typical pharmaceutical stability testing program. For full product information about **STABILITY SYSTEM**, please visit our website of [www.StabilitySystem.com](http://www.StabilitySystem.com).
